Durham, NC 27713

Dear Anne:

Please find attached 4 documents which make up the NCLVI WESTAT REPORT as of end of February 2010. The NCLVI Cooperative Agreement does not conclude until September 30, 2010.

- Attachment 1
The first attachment is the completed WESTAT FORM which you sent to me.
- Attachment 2
The second attachment is a chart of the NCLVI Fellows' Status, which includes the Fellows' names, start dates, university, completion or anticipated completion dates, and the names of dissertations. The right hand column with the dissertation titles include those which are shaded and represent working titles yet to be defended. The majority already have their defense dates scheduled.
- Attachment 3
Pages 1-20 are the Fellows' Presentation titles with dates, locations and names of conferences.
- Attachment 4
Pages 21-31 are the Fellow's Publication titles, dates, journal names, issues and page numbers.

One of the major efforts of the NLCVI was the added value enrichment program which encouraged collaboration. Please note the collaborative efforts made by the fellows in their publications and presentations.

Please be sure to let me know what else you might need. I am fairly certain we will have anything that you or the committee may request. As I mentioned before, the majority of the information, including all discussion board and enrichment activity evaluations are available.

Respectfully,

Kathleen M. Huebner, Ph.D.
NCLVI Director

cc. Glinda Hill, Project Officer
